Hi Rich,

HQ is looking for a report/summary that you might have completed as described below. Kathy said that you were the OSC but might not have been able to complete the report yet since you have been tied up on another project.

Were you able to complete that summary? If not, that's fine, just please let me know so that I can advise Nancy Browne at HQ accordingly. Nancy may try to contact you to discuss your collaborative activities. You can see the details below.

Thanks!

John J. Butler

Subject: R3 SF-Water programs collaboration

---

Hi John-

On a call a few months ago, Kathy Hodgkiss mentioned a situation where the SF staff person (I think it may have been an OSC) had identified information on possible NPDES violations on the Anacostia River, and provided that information to the water program. I think that Kathy said the OSC was writing a brief summary of the event/information and that the Region would share it with us when it was complete.

I'm just checking in to see if it is complete and if so, if I might get a copy of the summary. If not, perhaps I can talk with the OSC directly? The situation fits in with what we are trying to promote nationally ... collaboration/cooperation between SF and Water authorities.

Thanks very much for your help.

*Nancy*

PS - I may have some of the facts wrong above ... I think we were talking about the Anacostia and I think Kathy mentioned that it was an OSC writing it up .... but I could have misheard. Thanks.
